

Don't send Me Flowers

Take a last of drinks...before You part.....
like the smoke fast vanish's in the air.....
say some lines.....soft and tender....
now is not the time for heavy insights....
We'd changed enough of them in the past.....

Words....arrows like....sent just to hurt Us....
words....poison like.....just to cause pain.....
just pain....now 't's over We....should keep our peace and....
some ease 'nd be.....content with some tender plays.....
showing We're friends.....in the end.....
and let's pray We've learnt not to make...old mistakes again.....

Take a last of drinks.....before You part.....
like the smoke fast vanish's in the air.....in the air.....

don't send Me flowers.....: We can't revive those times....
used to be roses....(with) some fancy lines.....
don't send Me flowers.....: They can't come back - these times.....
used to be roses.....some loving lines.....

Take a last of drinks.....before You part.....
wish...Me some well - and so will I.....

don't send Me flowers.....roses they used to be.....
gone are those hours.....for You and Me.....
don't send Me flowers.....could be but roses red.....
gone are those hours....how soon they fade.....
don't send Me flowers....could not be roses red....
gone are those hours.....how soon they fade.....
how soon they fade.....how soon they fade....
